I hate railway traveling, and not merely as a matter of taste now. An incident that hefel me a few years ago, and that could only have happened on a railway, has caused it to be associated in my mind with such painful feelings, as that I cannot even think of it without, in some degree, renewing suffering which I would fain hope is without parallel in the experience of any whose eve may glance the experience of any whose eye may glance over this record of mine.

In the month of August, 18—, it was in-cumbent upon me to take a journey to a town at some distance from my own residence. Time being no object with me, and the country through which my route lay very beautiful, I resolved to take it in what was to me the most enjoyable way; but after diligent inqui-ry for anything in the shape of a stage coach, I found that they had ceased running the week before; so that "the rail" was the only chance of getting to the place of my destination.

Whereupon I made a virtue of necessity;

submitting, though with the worst grace in
the world; for my habitual dislike to this mode of traveling was increased by one of those unaccountable fits of reluctance to taking the journey, which sometimes seizes one, and which is usually set down to the score of nervousness. So I tried to explain mine; which, as the time drew near, rose to

in reserve for my especial use; and at six o'clock I jumped up from an uneasy dream, in which I was struggling with some nondescript wild beast, to find I had only half an hour left to make my toilet and get to the station. Of course, everything went wrong; strings slipped into knots, button flew; never was there such confusion. I could not be quick, I was in such a hurry. Hastily swallowed a cup of tea, (part of which, to brown my mishaps, went the wrong way.) I ran off; and must own that, important as was my business, I felt half sorry as I entered the booking office to find myself in time.

iness, I felt half sorry as I entered the booking office, to find myself in time.

The rained ceased as we got into the open country, a fine breeze sprang up, which blew away my fidgets, and I hegan internally to laugh at myself for having been such a foot; not forgetting to congratulate my better self on its having triumphed over the nervous fears that had beset me. It really became almost pleasant. A mail-train, so that I wentered. almost pleasant. A mail-train, so that I was secure from the plague of frequent stoppages, and their consequent fresh starts. An exhilarating atmosphere: the dark clouds that had spoken of thunder when I rose, now betrayed no such obstroperous intentions, but quietly taking themselves off as fast as they could. The weight on my spirit removed: yes, I began to be susceptible of a modified sort off enjoyment; and in the gaiety of my heart, I told my fellow traveler that it was a fine day, a remark of which he vouchsafed me no answer, save such might be called the turning on me COPAL, COACH, AND JAPAN VARCOPAL, COACH, AND JAPAN VARN15ttas—On land a large supply of the above articcle which can be not very low at

THURSDAY MORNING COLC. DOTOBER SO, 1855 OF The session of Indiana Conference commenced at Evansville yesterday, Bishop Ames presiding.

OUTHER TO BRONSON,-The following is a copy of the letter from Secretary Guthrie to O. C. Bronson, Collector of the port of New York, in reference to the unfortunate division in that State :

WASHINGTON, Oct. 3, 1863.

DEAR SIR-Since the conversation we had upon the subject of the unfortunate division in the Democratic party in New York, I feel more and more convinced that the present disorganization cannot fail to endanger the success of the principles of the party there, and to prove injurious elsewhere. But the separation is effected. A conviction has forced itself upon my mind that, by Democrats

are united as one man upon these principles and that policy, and had reason to believe gentlemen who consented to accept office under the administration stood pledged

to the same principles and policy.

As the President understands the principles arowed as the platform of the party at Haltimore, all Democrats who joined in upholding and carrying out the same were entitled to be recognized as worthy of the confidence of the united party, and consequently eligible to official station

That all could not obtain office was manifest, and that the distribution could not be exactly equal amongst the different sections of the party was equally certain. Yet the distribution was intended to be so made as to give just cause of complaint to no one section, and it is believed that this intention has been carried out, not only by the President himself, but by most of his appointees, in respect to the offices under the latter.

It has so happened that your appointments have been very generally made from that portion of the party to which you adhere.—
This you thought best calculated to secure union and harmony. That desirable object has failed to be obtained, and the other portion of the party feel that they have not been fully recognized by you, and, as things now stand, may not do justice to your motives. I call your attention to this subject, and to the party as Democrats distinctly avowing and firmly maintaining the principles of the Baltimore platform, and entitled to be recognized by appointment to official stations in your deout. Allow me to express the expectation that you will so recognize them in the

only way that will carry conviction with it. I have not hitherto deemed it necessary to make any particular inquiry as to the section of the Democratic party to which persons nominated for positions in the custom-house at New York belonged prior to the re-union of the party in 1849—which re-union was supposed to have been thoroughly cemented in the great and triumphant contest in 1852. that as the present excited state of feeling among political friends who acted together in 1852, and who now stand unequivocally upon the same platform of principles in New York administration will not approve. I chall send a copy of this letter to the naval officer and the surveyor of the Port, in order that there may be no misapprehension as to the policy which the President will require to be pur-

> I am, very respectfully, JAMES GUTHRIE.

O. U. BRONSON, Esq., Collector, N. York. This letter declares what has been and what will continue to be the policy of the adminis-

A policy eminently just, considering that both factions supported the election of Gen. Pierce with equal real. The convention which nominated Mr. Pierce, adopted a platform; on that platform there was a re-union of the parties. In dispensing the patronage of the National Government, the President could not go behind this compromise and enquire into the antecedents of applicants for office, to determine whether they were democrats. Without the re-union, both north and south, defeat was inevitable.

The policy of the President, however just the party. In dispensing the patronage he it is a democratic, whig, or neutral paper. divided it between the two wings. The result was that he did not receive the cordial support of either branch.

In 1848 Cen. Cass united his fortunes with the Hunkers, and the Barnburners seeing themselves proscribed, defeated Gen. Case, and the result was the election of Taylor, and the ascendancy of the Whigs in the administration of the National Government. At this result the Barnburners rejoiced, preferring to be prescribed by the Whigs to the Democrats. On Gen. Pierce, both wings again united, and because the President has divided his patronage both factions are dissatisfied, and are now in open rebellion - divided and distracted with two tickets in the field, and with certain defeat awaiting their folly and madness. The letter of Mr. Guthrie has been denounced by both wings. The hards are peculiarly severe, Collector Bronson belongs to that branch, and they look upon the letter of Mr. Guthrie, as a contract for 800 hogs was made there, yes laying down a rule of action against which they knowingly rebet. Bronson will not obey, but openly defy the Secretary.

The safts, for whose benefit this letter was written, through their organ, the Evening Post, is down on the Secretary. It openly defici and spits on the letter of Mr. Outbrie. Hear

The rule laid down by Mr. Guthrie—that adherence to the Baltimore platform—is gracefully illiberal of itself. who Dro In?—There is quite a controversy in Ohio as to whether the Maine Law defeated Whiggery or Whiggery the Maine Law. The arguments are progressing with much spirit and bitterness. When the smoke of the battle rises from the field, and calm reason resumes her empire, we shall then be for Lewis and Allen. This base combination fail to inform our readers of the result of the controversy. We think, however, that the Maine Law, chained as it was to the dead vote on the School Commissioner, but we carcass of Whiggery, had a bad prospect of the plate to each other upon a common plate form of principles, the division could and ought to have been prevented.

LIQUOR ADVERTISEMENTS .- Horace Greeley says that some of his friends think that he ought to exclude all liquor advertisements from the columns of the Tribune on account of his being an ultra temperance man, and advocate of the Maine Law? but after pon-dering on the subject considerably, he thinks he ought not to do it, for several very sensi-

ble reasons, which he mentions as follows:

1. These liquors are recognized by physic and law—some of them by religion also—as having a legitimate use (other than as a beverage), wherein they are harmless and beastfold.

2. Our readers are fully cautioned against the abuse of them, and can only employ them as a beverage by sinning against light and inowledge.
3. Were we to exclude advertis

liquors arbitrarily and absolutely from our columns, it might be plausibly said that we distrusted the force of our own arguments even upon those most familiar with them, and had no confidence either in the virtue or

the discernment of our readers.

We think the above ought to satisfy the fanation who counsel Hornes to pursue a different course.—Cen. Eng.

The delegates from this county were few and far between; and the most of these came away fully disgusted with the shaving operations they had underweat at the hands of the people of the Star city. The only redeeming act on record is one performed by the Masons and Odd Fellows, both of which opened their Halls for sleeping apartments to hundreds, who, otherwise would have had to bedded out doors. A miserable place for a State Fair. — Terre Haute Prairie City.

It cannot be denied that much complaint exists, and not without reason, on the part of sufferers from the unparalleled fleecing of the Lafayette hotel-keepers during the State Fair.

SALAD FOR THE SOLITARY—BY AN Epicure, at WERDEN & CHAMBERLAIN'S, Opposite the Wright House. The proprietors of the Bramble House shaved closer and with duller razors than any of them, for which they have been universally cursed by all who stopped with them.

But we know that the citizens of Lafayette frowned upon all such swindling-many of whom appealed to the soulless land (sharks) lords to desist, but their appeals were in vain. Travelers should remember the Bramble House.

We think our Terre Haute cotemporary in error in classing among the shavers the "people of the Star City." To our certain knowledge, accommodations at private house were furnished to hundreds, most of whom were entire strangers, and every exertion was used, on the part of the citizens, to add to the comfort of the sojourners. She Superintendent of the Fair, J. J. Bingham, was especially active, and it was mainly through his exertions that Odd Fellows and Masonic Halls were opened as lodging rooms.

Sr. Louis, Oct. 18. Letters from Santa Fe announce that F. X. Letters from Santa Fe announce that F. X. Aubrey had reached Santa Fe. He crossed the Sierra Nevada at the Tojon Pass, on the 12th of July, and struck the Rio Del Norte at Heralto. The route has no obstruction for either a railroad or a wagon road.

Mr. Aubrey found gold at the crossing of the Colorado river and other places. He also found silver and copper ore in great abundance.

The Indians were very numerous and very hostile, and fought Aubrey's party for thirty days, and nearly all of the party were wounded. Aubrey himself received eight wounds at different times. The fighting was chiefly with the Jarrotes.

The party met a tribe of Indians two hundred miles west of Zune who had gold bul-

street N. Y.—The accumulated Cash Fund is now more than \$1,750,000, securely invested in Bonds, Mortgages, and Stocks?

The remarkable and extraordinary prosperity of this Institution, and the eminently strong position and high character which it has utained, in so short a period, are attributable to the streit adherence to the true principles of Life Assurance on the part of its Board of Managers, and their efforts to place its affairs on a secure, sound, and impregnable foundation.

This Institution now presents to the Policy holder the first and most important consideration that should influence every one desiring to provide for his family by means of Life Assurance, or who may wish to appropriate his aurolus income to the most certain and profushle of all investments—the fundamental guaranty of security, solidity, and perpetualy; thus securing and placing beyond the possible contingency of dise positions, the prompt cash payment of all its Policies, whenever due

In addition to the security thus afforded, this Institution offers to Insurers, for the whole term of life, the following advantages:

A I were realized Fund, invested and canadity accumulate.

A large realized Fund, invested and rapidly accumulating at compound interest.

The prompt Cash settlement of all losses, without deduction by 'prem um notes?' or otherwise.

Regular divisions of all the profits among those who pay the premiums, which are credited on the Policies, and are payable in east, with the same insured, after death.

The rates of Insurance reduced to actual cost, by a participation in all the profits.

An increasing value to its Policies the longer they are kept up.

THE MAINE LAW IN ENGLAND.—The temperance men of England are about to petition their parliament for a prohibitory liquor law. There are 2.627 licensed to sell spirits and wine, and 38,658 licensed to sell beer. In 1861 there were 31,000,000 gallons of spirits consumed in Great Britain in one year, with nearly 6,200,000 gallons of foreign wine. The whole amount thence accuing to the public revenue is over fifteen millions sterling.

PATENT ROOFING.

FIRE AND WATER PROOF COMPOSITION ROOFING NATERIAL. The undersigned

TION ROOFING MATERIAL. The inderenged respectfully beg leave to cell the attention of the community to this invaluable material for Roofs. In the Emiseria citie is the atmost entirely supe seeder all citer kinds of Roofs; and in this cury, although but recently introduced, has in or vr instance given the most cut re satisfaction. Arrangements are now reflected by which the subscribers are enabled to execute all orders for the Roofing Material, either is town or contarty, at the shortest notice and on the most favorable terms.

They are conomical in construction, as they affect a considerable saving of side and cross-wall, which goes far towards paying their cost, and are a protection against fire, presenting an incombustible surface to burning bodies failing upon them. Being nearly level, they may be used conveniently for all the purposes of common yards. The daily use of Roofs, to which we can refer sufficiently at case their durability for those purposes. Orders respectful solicited.

We, the under signed, having used the Composition Roofing Material of Louden & Duffy, very cheerfully recommend its use, believing it to possess all the advantages ascribed to it as a Fire and Water-proof Composition:

PROFESSOR ALEX. C. BARRY'S TRICOPHEROU'S, OR MEDICATED COMPOUND, Beautifying, Curling, Preserving, Restoring, and Strengthening the Hair, relieving diseases of the skin, curing Rheumanie pains, and healing external wounds ounded by no geographicallines the reputation of Barry's Tricopherous pervades the Umon. The sales of the article of late years have increased in a ratio that aimost exceeds belief. Professor Barry, after a careful examination of his sales' book, finds that the number o bottles delivered to order, in quantities from half s gross upward, during the year 18a4, was within a trifle of 950 000.

It is unnecessary to present at length the evidences of the wonderful properties of the Tricopherous, when the public have furnished such an indorsement as this. The cheapiness of the article and the explanations given of its hemical action upon the hair, the scalp, and in all cases of superficial irrustion, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself. The effects of the fluid exceeded expectation. It acted like a charma. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale tricle of an extent hitherto unheard of as regards articles of this kind. The highest point has not yet been reached, and it is betieved that the sales this year will be a mill on and a half of bottles.

MISCELLANEOUS.

A YRE'S CHERRY PECTORAL FOR
the cure of Coughs, colds, Hoarseness, Bronchitis,
Whooping Cough, Croup, Asthma, and Consumption.
Many years of trial, instead of impairing the public
confidence in this medicine, has won for it an appreciation and notoricty by far exceeding the most is a
guine expectations of its friends. Nothing aut itsus,
trinics circus and the unmistakable benefit conferreon thousands of sufferers, could originate and maintain
the reputation it emjoys. While many inferior remediscarded, this has gained ffiched by every trial, conferred benefits on the edited they can never forget
and produced cures too numerous and too remarkable
to be forcotten.

While it is fraud on the public to pretend that any
one medicine has gradually become the best reliance of
the afflicted, from the log-cabin of the American possant, to the palaces of European Kings Throughout
this medicine has gradually become the best reliance of
this entire country, in every State, city, and indeed almost every hamlet it contains, Cherry Protoral is
known as the best remedy extant for diseases of the
Throat and Lungs, and in many foreign countries, it is
coming to be extensively used by their most intelligent
Physicians. In Great Britain, France and Germany,
where the medical sciences have reached their highest
perfection, Cherry State, city, and indeed almost every hamnet it contains, Cherry Rotoral, is
known as the best remedy extant for diseases of the
Throat and Lungs, and in many foreign countries, it is
coming to be extensively used by their most intelligent
Physicians. In Great Britain, France and Germany,
where the medical sciences have reached their highest
perfection, Cherry Protoral is introduced, and in
constant use in the Armies, Hospitals, Alms Houses,
Public Institutions, and in domestic practice, as the
unrest remedy their attending Physicians can employ
for the more dangerous affections of the lungs. Also in
milder cases, and for children it is safe, pleasant, and
